Published on 13 Sep 2025 | By IFI Correspondent

BLACKPINK's Lisa is a global fashion icon, admired for her unique blend of cool, casual, and polished looks. Her style resonates with Gen Z, combining streetwear elements with chic sophistication. The best part? You don't need luxury brands to emulate her vibe. With smart shopping and styling hacks, you can recreate Lisa-inspired outfits without breaking the bank.

### 1. Crop Tops with Baggy Pants

Lisa's signature look often features a crop top paired with baggy pants. This combination offers a relaxed yet trendy silhouette. Opt for wide-leg jeans or loose cargo pants with a fitted baby tee or tank top to achieve this style. Such outfits are perfect for a casual day out or a laid-back evening. You can find similar pieces in street markets like Sarojini Nagar in Delhi or Hill Road in Mumbai.

### 2. Oversized Hoodies and Chill Vibes

Oversized hoodies are a staple in Lisa's wardrobe, embodying an effortlessly cool aesthetic. Pairing them with leggings or skinny jeans creates a balanced look. This ensemble is ideal for cozy days or casual outings. To add a personal touch, consider customizing your hoodie with patches or embroidery.

### 3. Add Small Accessories

Lisa elevates her outfits with subtle accessories like statement earrings, rings, or belts. These additions can transform a basic outfit into something special. When choosing accessories, aim for pieces that complement your outfit without overwhelming it. For instance, a chunky necklace can add flair to a simple dress.

### 4. Monotone Always Wins

Opting for monochrome outfits can create a sleek and cohesive look. Lisa often dons outfits in a single color palette, making her ensembles appear polished and intentional. To achieve this, select pieces in varying shades of the same color. For example, pairing a beige top with khaki pants and brown accessories.

### 5. Don't Forget Hair and Makeup

Lisa's hairstyles and makeup are integral to her signature look. She often sports blunt bangs and sleek ponytails, which frame her face beautifully. For makeup, a dewy base with subtle eyeshadow and a nude lip enhances her natural features. To replicate her style, consider consulting beauty tutorials or seeking professional advice.
