Published on 19 Sep 2025 | By IFI Correspondent

Paris Hilton has once again captivated the fashion world with her latest photoshoot for i-D magazine. In this striking editorial, she juxtaposes elements of rebellion and luxury, showcasing a daring new side of her style.

The Statement Piece: Patent Biker Jacket

At the heart of Hilton's ensemble is a commanding oversized black patent leather biker jacket. Featuring the classic asymmetrical zip and wide lapels, the jacket's high-shine finish elevates it from a street style staple to a high-fashion statement piece. Firstly she worn over a sleek black garment, the silhouette is intentionally voluminous on top, creating an aggressive, architectural shape that suggests power and control.

Adding a layer of sophistication, Hilton drapes a heavy, oversized string of pearl beads casually over her shoulder. Secondly the pearls spill onto the white chair she occupies, creating a dramatic contrast against the patent leather. This juxtaposition evokes a subtle, playful reference to Audrey Hepburn's classic style, filtered through a punk-rock lens.

The Final Flourish: Ostrich Feather

Completing the look, Hilton holds a delicate pale pink ostrich feather, adding a final, decadent touch of theatricality. Therefore accessory enhances the overall aesthetic, blending opulence with edge.

The Mood

The photoshoot's atmosphere is moody and theatrical, shot against draped fabric and raw flooring, giving the images the feel of backstage drama. Finally Hilton's pose is commanding; seated with one leg extended in sheer black tights and pointed-toe heels, she gazes away with a slight tension in her neck and jaw. Afterall her beauty look maintains the sophisticated tension: a slicked-back high ponytail ensures that the neckline is kept clean and sharp, while her makeup is polished, featuring a nude glam with a subtly lined eye, allowing her clear skin to achieve a soft radiant glow.

A Modern Take on Power Dressing

Hilton's latest photoshoot challenges traditional notions of power dressing. Consequently merging elements of punk and luxury, she redefines what it means to dress with authority and style. Thus the editorial not only showcases her evolving fashion sensibility but also cements her status as a modern style icon.
