

Emily Ratajkowski Redefines Power Dressing at London Fashion Week

Published on 19 Sep 2025 | By IFI Correspondent

At the H&M&180: The London Issue show during London Fashion Week, Emily Ratajkowski showcased a minimalist yet impactful look that redefined power dressing. Her ensemble distilled the essence of 1980s tailoring into a sleek, contemporary statement.

A Black Double-Breasted Suit

The foundation of Emily's outfit was a superbly cut black double-breasted suit. This oversized blazer features strong, architectural shoulders and a long-line silhouette, creating a striking, powerful V-shape. Crucially, the styling was executed with a subtle nod to the provocative: the deep V-neck created by the double-breasted closure was worn without an inner layer, making the blazer itself the statement piece.

Coordinated Trousers and Minimalist Accessories

The coordinating trousers were cut wide-leg with a sharp crease, elongating the figure and maintaining a fluid, unbroken line of color and texture. Therefore dark, matte fabric emphasized the tailored structure. Accessories are strategically sparse, maintaining the simplicity of the look. Jewelry was minimal, allowing the bold, clean lines of the tailoring to act as the true adornment. Finally her shoes, black and hidden beneath the sweeping hem of the trousers, preserved the monolithic silhouette.

A Non-Verbal Declaration of Confidence

Emily Ratajkowski's appearance at the show was a sharp, non-verbal declaration that the most impactful fashion often lies in perfect execution of simplicity. Eschewing flashy photos and complex layering, she commanded the room in a minimalist look that championed precise tailoring and understated elegance.
