

Malavika Mohanan Stuns in JJ Valaya's Zari Crystal Lehenga

Published on 29 Sep 2025 | By IFI Correspondent

Malavika Mohanan's recent appearance at the launch of JJ Valaya's new store at Jio World Plaza has captivated fashion enthusiasts and critics alike. The actress donned a golden-yellow lehenga from Valaya's Baroda collection, a piece that seamlessly blended traditional craftsmanship with contemporary aesthetics.

A Masterpiece in Design

The lehenga, crafted from dupion silk, featured a harmonious fusion of floral, foliage, and bird motifs, contrasted with geometric borders. This juxtaposition of patterns showcased Valaya's signature style, where contrasting elements coalesce into a unified vision. Complementing the ensemble was a silk organza stole with a dupion silk border, adding depth and texture to the outfit.

The blouse, described as the "crowning jewel" of the ensemble, was adorned with antique gold metallic embroidery, incorporating zari, crystals, beads, and resham work. This intricate detailing highlighted the meticulous craftsmanship that defines Valaya's creations.

Styling That Speaks Volumes

To accentuate the golden hue of the lehenga, Malavika Mohanan chose an emerald choker from Gehna Jewellers. By forgoing earrings, she allowed the neckpiece to take center stage, creating a balanced and elegant look.

Her beauty choices further complemented the ensemble. The actress opted for a sleek, pulled-back ponytail, emphasizing the outfit's contemporary edge. However the makeup was understated yet sultry, featuring soft smoky eyes, sculpted cheeks, and a caramel nude lip, striking a perfect balance between traditional and modern elements.

Celebrating Craftsmanship

This appearance not only showcased Malavika Mohanan's impeccable style but also highlighted the rich heritage of Indian couture. Therefore collaboration between the actress and designer JJ Valaya underscores the importance of preserving traditional craftsmanship.
