

## Lumina by Around the City: A Radiant Edit Celebrating Effortless Elegance

Published on 29 Sep 2025 | By IFI Correspondent

**Lumina**, the newest edit from **Around the City**, transforms everyday fashion into a celebration of light and radiance. Inspired by the way light elevates the simplest things into something extraordinary, this collection is a study in effortless elegance.

Founder **Niharika Raut** explains, “The edit was inspired by the idea of radiance. We wanted to capture that sense of glow through airy fabrics, luminous colours, and clean yet striking silhouettes.” Designed for women who embrace both softness and strength, Lumina offers an aesthetic that is simultaneously confident, graceful, and versatile.

The collection features breathable **cotton and linen blends**, with the addition of **viscose lurex** for fluid movement. The color palette is seasonally attuned, highlighting **butter yellow, rich chocolate brown, and classic black staples**. Attention to detail defines the collection—minimal embroidery, delicate self-designs, and subtle tailoring flatter a variety of body types, creating “quiet richness” without heavy prints.

Lumina’s range includes dresses, co-ord sets, and versatile separates suitable for brunches, travel, intimate celebrations, or casual evenings. Standout pieces include the **Enola dress** with smocking details and a gold-accented waist belt, offering fluidity and universal appeal, and the **butter-yellow Lyla co-ord set**, combining delicate lace with functionality for a chic, contemporary look.

With Lumina, Around the City celebrates light, movement, and understated sophistication—garments that transform everyday moments into stylish experiences.
