

Astroyogi Launches Yogii Collection: Spiritual Jewellery Infused with Cosmic Energy

Published on 29 Sep 2025 | By IFI Correspondent

Astroyogi introduces the **Yogii Collection**, a spiritual jewellery line where cosmic energy, astrology, and elegant design converge. Conceived by **Meena Kapoor**, the collection is rooted in a mission to bring **balance, well-being, and intention** into everyday life through jewellery.

Unlike conventional designs, Yogii prioritises the **purity and authenticity of crystals**, ensuring each piece radiates genuine cosmic energy. “While our designs may appear simple, the uniqueness lies in the clarity and vibrational power of our gemstones,” Meena explains. Crystals like **Rose Quartz for love** and **Tourmaline for protection** are carefully selected to support the wearer’s personal and spiritual journey.

Astrology plays a central role in Yogii’s creation. Each gemstone is aligned with **Vedic planetary energies**—rubies for the Sun, emeralds for Mercury, blue sapphires for Saturn, yellow sapphires for Jupiter—and set in metals like gold, silver, or Panchdhatu following strict astrological protocols. This ensures that the jewellery not only looks exquisite but resonates with **energetic potency**.

Each piece undergoes **activation rituals**, including cleansing, mantra chanting, and wearing on astrologically auspicious days. For instance, the **Pyrite ‘Money Magnet’ bracelet** is energised on a Sunday to attract abundance. Top picks include the **Forever Bands** with Rose Quartz and Tourmaline for anniversaries, the **Love Shield Bracelet** with an Evil Eye motif for daily protection, and the calming **Amethyst Bracelet**, perfect for spiritual grace on any occasion.

Designed for the **spiritually aware and style-savvy individual**, the Yogii Collection is jewellery with purpose—an elegant extension of your cosmic blueprint.
