

Anjini Dhawan Dazzles in Glam Black Ensemble at Filmfare

Published on 11 Oct 2025 | By IFI Correspondent

Newcomer Anjini Dhawan made a striking impression at the **Filmfare Glamour & Style Awards 2025**, delivering a look that balanced youthful charm with high-glam sophistication. The styling, silhouette, and overall aura hinted at her readiness to stake a compelling fashion identity as she steps into the limelight.

The Outfit: Glamorous, Bold & Refined

Anjini chose a **black saree or draped ensemble** with metallic or sequin detail that caught the light — the shimmer adding just enough drama without tipping into excess. The blouse stood out: a **gold or heavily embellished bralette** or crop piece, cut to offer structure and contrast. The two elements together created a striking interplay between darkness and glint, between tradition and modern edge.

Styling & Accents

Her **jewellery** matched the statement nature of her outfit — likely bold earrings and minimal necklaces to not compete with the garment's intricacy. The styling appeared intentional: letting the outfit shine while the accessories underscore without overwhelming.

Anjini's **hair** was styled in loose waves, part open but with volume — adding softness and movement to the more structured outfit. Her **makeup** leaned toward glam: luminous skin, subtle contouring, and a lip that probably stayed neutral or softly tinted to complement rather than fight the ensemble.

The Visual Mood & Impact

On the red carpet, she carried an air of confidence — not stiff, but composed. The choices in cut, contrast, and detail conveyed someone who understands that red carpet presence is as much about attitude as it is about the clothes. The balance of shimmer and darkness, structure and fluidity, gave her look depth and layered appeal.
