

Kriti Sanon Wows in Emerald Sculpted Couture

Published on 13 Oct 2025 | By IFI Correspondent

On a dazzling evening of glamour and style, **Kriti Sanon** left onlookers in awe. She appeared in a stunning **emerald couture gown** designed by **Amit Aggarwal**. Her look merged bold structure with luminous elegance, making for one of the night's most striking moments.

A Sculptural Masterpiece

Aggarwal's signature stood tall in the design.

The gown featured **architectural contours**, giving shape and movement that felt both fluid and strong. Thus, the look felt regal yet avant-garde—classic meets innovation.

The gown hugged Kriti's silhouette before flaring subtly, adding drama without overwhelming her frame. Its sculpted detailing elevated what could have been a simple evening gown into fashion art.

Styling That Let the Dress Speak

Kriti's styling was purposefully minimal, letting the couture shine.

She opted for sleek hair, soft yet bold makeup, and understated accessories.

A pair of earrings and delicate rings sufficed—no extra fuss.

Her poise and posture became part of the look's impact.

Every pose, every turn, emphasized the gown's lines and her own confidence.

Why This Moment Mattered

First, it reaffirmed Kriti's growing presence in fashion, not just in film.

Second, it showcased Amit Aggarwal's continued mastery of sculptural couture.

Third, in a sea of red carpet looks, this one was memorable—not for flashiness, but for thoughtful design and elegant restraint.
