

Kriti Sanon Stuns in Sparkling Silhouette at Diwali Bash

Published on 14 Oct 2025 | By IFI Correspondent

At Manish Malhotra's starry Diwali bash, **Kriti Sanon** turned heads with her glamorous yet refined style. While the headline "All That Glitters Isn't Gold" was used broadly, Kriti's appearance proved otherwise. She embraced shimmer, shine, and festive elegance in her ensemble.

In photographs circulated online, Kriti is seen wearing a radiant outfit that glistens under the event lights. Although the article pairs her with Jacqueline Fernandez under the same fashion narrative, Kriti's look distinctly leans into metallic charm.

The Outfit: Sparkle & Silhouette

Kriti chose a design that balances embellishment with structure. The outfit features **sparkling details**—sequins, metallic threads, and shimmer elements—that catch camera flashes and create a luminous effect.

Her silhouette appears sleek and tailored rather than voluminous. The cut flatters her frame, letting the shine become the focal point rather than overwhelming shapes or layers. The overall impression is of **festive glamour with sophistication**, not excessive drama.

Styling That Elevates

To complement the glittering base, Kriti's styling leans minimal yet impactful:

- **Jewelry:** She appears to have chosen delicate pieces, perhaps understated earrings and simple accessories so as not to compete with her outfit.
- **Hair & Makeup:** Her hair is likely styled in a polished way—smooth, neat, and elegant—so that it harmonizes with the shimmer without distraction. Her makeup accentuates the glow rather than masking it: luminous skin, highlighted features, subtle metallic touches.
- **Overall Balance:** The sparkle of her outfit is balanced by relative restraint elsewhere, creating a cohesive and luminous look rather than a maximalist explosion.
