A Groundbreaking Showcase at IBFW 2025

At the Timex India Beach Fashion Week (IBFW) Season 11 in Goa, Treasures by Tiara, led by designer Tiara Dhody, elevated the fusion of fashion and jewellery to new heights. The brand introduced two remarkable collections: the debut haute couture apparel line, *The Elemental Series*, and the exquisite jewellery collection, *The Garden Party*. This dual showcase marked a significant milestone in Treasures by Tiara's journey, solidifying its position as a luxury brand redefining couture and adornment.

'The Elemental Series': A Tribute to Nature's Forces

The Elemental Series featured 17 meticulously crafted looks, each inspired by one of the four classical elements:

- **Air:** Light, winged silhouettes symbolizing freedom and ethereal beauty.
- **Water:** Flowing drapes that captured the fluidity and grace of water.
- **Earth:** Textured, grounded outfits reflecting the strength and stability of the earth.
- **Fire:** Bold, dramatic designs embodying the passion and intensity of fire.

Each ensemble was thoughtfully paired with pieces from *The Garden Party* jewellery collection, creating a harmonious blend of fashion and adornment.

The Garden Party jewellery collection showcased a range of pieces crafted in silver, pewter, gold, and adorned with gemstones. Drawing inspiration from feminine strength, mythology, and classic themes, the collection included rings, earrings, necklaces, bracelets, cuffs, and unique items like gloves and corsets. Each piece was designed to celebrate timeless elegance and individuality.
