

Krithi Shetty Turns Heads in “Floral Drama in Black” Look

Published on 28 Oct 2025 | By IFI Correspondent

Outfit Breakdown

- She pairs a **black mermaid-cut skirt** with a **strapless corset top** that features vivid **white floral prints and green-foliage detailing**, creating a dramatic contrast.
- The silhouette is fitted through the body and then flares at the hem, giving it a red-carpet elegance with a hint of theatricality.
- Styling-wise, she keeps her beauty look understated — soft waves in her hair and minimal makeup — allowing the outfit to stand out. She adds **gold cuffs** as accessories to inject subtle glamour without overshadowing the design.

Why It Works

- The use of **black as the base** gives the ensemble a strong, grounding presence, while the **white floral print** adds the drama and visual interest.
- The corset/mermaid combo plays into evening wear silhouettes but remains fresh thanks to the floral motif and modern styling.
- The accessory choices (gold cuffs, soft waves) are thoughtful, which ensures the outfit remains the hero.
- The overall effect: bold yet balanced — a look that signals fashion confidence with a touch of softness.
