

Winter-Ready with a Twist: Nimrat Kaur's Fresh Take on Seasonal Styling

Published on 03 Nov 2025 | By IFI Correspondent

Bollywood actress Nimrat Kaur stepped out recently in a look that redefines winter style in India. Instead of heavy coat, she combined a **bold printed jacket** with a **soft beige fringed skirt**. According to a media post, this styling choice “sets a new mood-board for winter fashion”.

The Look: Key Details

- **Printed Jacket:** The standout piece of her outfit was a high-neck, tailored jacket with a striking print—giving structure and personality to the outfit.
- **Beige Fringed Skirt:** Rather than going with classic trousers, she opted for a fringed skirt in beige, adding movement, texture and an unexpected layering compromise for winter.
- **Styling Balance:** By pairing a warm outer piece with a more playful skirt, Nimrat kept the look grounded yet fashion-forward. The colour palette remains soft but with a strong element of print drama.
- **Accessories & Footwear:** While full details aren't widely published, the overall effect is one of minimalist accessories, letting the print and texture speak. The footwear likely leaned towards winter-appropriate boots or closed shoes to maintain the seasonal suitability.

Why This Styling Works

- **Breaks the norm:** Winter dressing in India often means dark, heavy outerwear. Nimrat's look challenges that by introducing print and texture while still maintaining warmth.
- **Textural contrast:** The juxtaposition of a structured printed jacket with a flowing fringed skirt adds visual interest and breaks monotony.
- **Colour thoughtful:** The beige skirt anchors the outfit in a neutral base, while the jacket brings in the boldness—striking a balance.
- **Layered smartly:** The skirt allows for movement and transition (indoors to outdoors) while the jacket provides the warmth and statement.

- **Fashion-forward yet wearable:** The look appears stylish enough for an event or fashion outing, but also plausible for upscale daily dressing in city winter conditions.
