

Trisha Krishnan Stuns in Mermaid-Style Lehenga

South Indian fashion icon Trisha Krishnan stole the spotlight at the audio launch of her upcoming film, *Thug Life*. Choosing a designer lehenga that fused modern tailoring with ethnic luxury, she delivered a look that resonated across social media and wedding-season style feeds.

The Outfit: Where Mermaid Silhouette Meets Bling

The ensemble—designed by Mishru—features a structured, strapless sweetheart blouse with a dramatic U-shaped hemline that exposes the waist. Below, the mermaid-style skirt hugs at the hips and flares out from the knees, crafting a dramatic silhouette ideal for bridal or sangeet occasions. The fabric and silhouette combine elegance with boldness.

The skirt and blouse are richly embroidered with wild-flower motifs and sequins, lending artisanal craftsmanship to the glam look. A light tulle dupatta with scalloped floral applique borders completed the outfit, draped like a cape to add movement and flair.

Jewellery & Styling: Elegance in Every Detail

Adding to the visual impact, Trisha adorned herself with a diamond set from GRT Jewellers—complete with a delicate neckpiece featuring dangling diamonds, matching earrings and a statement ring. Her makeup featured a glowing warm base, subtle blush and highlighter, kohl-lined eyes and glossy nude lips. Her hairstyle was soft waves with front curls framing her face, while the look remained polished and poised—complementing rather than competing with the outfit.
