

Kamakshi K: Redefining Floral Luxury with Ethics

Published on 08 Nov 2025 | By IFI Correspondent

After establishing her wedding planning business in 2014 specialising in destination weddings, Kamakshi founded Florals by Kamakshi K — where her passion for flowers and trained floristry converge.

Training & Craft

Kamakshi formally studied floristry internationally in order to refine her craft. Through Florals by Kamakshi K, she produces both high-end bridal bouquets and large-scale sculptural floral installations.

Ethics & Design Vision

Her brand stands for modern floral luxury that remains rooted in ethical and eco-conscious practices. By marrying sculptural artistry with sustainable materials and processes, she elevates the floral business.

Why It Matters

In an industry often seen as decorative, Kamakshi's work positions floral design as an art form and a luxury statement—yet anchored in consciousness. Her approach broadens how we think of floristry in event and lifestyle contexts.
