

Ananya Panday Stuns in Crystal-Laden Gaurav Gupta Sari

Published on 02 Dec 2025 | By IFI Correspondent

Ananya Panday delivered a powerful fashion moment with her latest appearance in a dramatic Gaurav Gupta creation. The actor stepped out in a black sari gown that merged sculptural couture with bold embellishment, instantly making waves across social media and fashion circles.

A Statement Look in Black

Black remains a timeless favourite in couture, but Gaurav Gupta has turned it into something more. His design for Ananya was sculpted, fluid, and futuristic. The sari gown combined the elegance of Indian draping with the structure of international haute couture.

Ananya carried the look with poise. The gown highlighted her frame while offering a sense of movement and drama. The silhouette was sharp yet soft, making it one of her standout red-carpet moments of the year.

Crystal Embellishment at Its Finest

The most striking element of the outfit was its heavy crystal detailing. The gown shimmered under the light, creating a holographic effect. Each crystal was placed with precision, adding depth and texture.

The embellishments framed the bodice and extended into the draped panels. They provided a luxurious finish without overpowering the saree-inspired structure. This balance between shine and sculpting is signature Gaurav Gupta.

This fusion of Indian craftsmanship and modern design positioned the outfit as a global couture statement. It represents a growing trend in Indian fashion—honouring tradition through innovation.

Makeup and Styling

Ananya's styling complemented the bold gown. She wore sleek, minimal makeup with well-defined eyes and nude lips. Her hair was styled in a clean manner, allowing the gown to remain the focal point.

Accessories were kept subtle. The choice reflected a modern red-carpet philosophy: let one statement piece speak the loudest.
