

Taapsee Pannu's White-Dress Moment: Metallic Brown Lips Steal the Show

Actress Taapsee Pannu recently shared a new look on social media that created quite a buzz. She wore a sleek white midi-length dress from House of Pinks, styled with understated accessories — but it was her bold, shimmery **metallic brown lipstick** that turned the entire outfit into a standout moment.

The Look

The dress features a corset-style cut, a sheer mesh mid-section, detached sleeves and a sweetheart neckline — creating an elegant, architectural silhouette.

Taapsee paired this with minimal yet striking jewelry: a classic choker, metallic cuff bracelets, and matching metallic earrings. Her hair was styled simply — let loose and parted in the middle — letting the dress and lips remain the focus.

Why the Metallic Lips Made the Look

While the white dress offered sophistication and subtlety, the metallic brown lipstick added depth and editorial flair. The bold lip colour served as the statement piece — transforming a minimalistic outfit into a dramatic, high-fashion moment. Many fashion watchers called it a “game-changer.” Her styling choice underlines confidence, elegance and a modern aesthetic that doesn't rely on over-accessorizing.
