

Top Hydrating Setting Sprays for a Glass Skin Finish

Published on 01 Jan 2026 | By IFI Correspondent

Achieving that coveted **glass skin glow** — a luminous, plump and naturally radiant complexion — doesn't always require heavy makeup or glittering highlighters. One of the beauty editor's best tips? Finish your makeup with a **hydrating setting spray** that melts products together, boosts moisture and leaves your skin looking fresh rather than cakey. Here are five standout setting sprays beauty lovers are raving about for a dewy *glass skin* finish.

1. Charlotte Tilbury Airbrush Flawless Setting Spray

A cult favourite, this spray goes beyond just setting makeup — it **blurs the look of pores and reduces powderiness**, offering a refined, soft-focus glow that looks polished in photos and in person. Its lightweight mist keeps makeup intact while keeping your complexion hydrated.

2. M-A-C Prep + Prime Fix+

Often considered a pro artist staple, this classic mist **seamlessly melts makeup into the skin** while boosting luminosity. Ideal for dull or dry complexions, it's perfect for refreshing makeup throughout the day without disrupting your base.

3. Urban Decay All Nighter Ultra Glow

A twist on Urban Decay's iconic long-wearing formula, the *Ultra Glow* version combines **extended makeup hold with added hydration**. It prevents dryness and dullness, resulting in a balanced radiant finish that stays fresh even after hours out.

4. Kay Beauty Hydra-Prep Setting Spray

Formulated keeping Indian climates in mind, this spray strikes the right **balance between hydration and hold**. It locks makeup in place without heaviness and delivers a breathable glow ideal for everyday wear or special events.

5. Anastasia Beverly Hills Dewy Set Setting Spray

Best suited for dry to normal skin, this mist provides an **instant high-shine, glass-like glow**. It revitalises tired makeup and enhances radiance, making it a go-to choice for editorial looks, evening makeup or days you want an extra dewy finish.
