

Pearls and Princess Vibes: Sara Ali Khan's Stunning Manish Malhotra Ensemble

Published on 09 Jan 2026 | By IFI Correspondent

Actress **Sara Ali Khan** has once again made a striking fashion statement, dazzling fans and fashion followers with her latest couture look from designer **Manish Malhotra**. The ensemble — an ivory lehenga intricately adorned with pearls and crystals — blends two trending aesthetics: *pearlcore* and *mermaidcore*, combining timeless elegance with contemporary flair.

A Regal Ensemble With Modern Craftsmanship

Sara wore a stunning ivory lehenga featuring a **mermaid-style skirt** that flares beautifully, highlighting a handcrafted design dripping in pearls and shimmering crystals. The pearl embellishments give the outfit a refined, couture appeal, while the silhouette evokes a princess-like charm that resonates with both traditional and modern fashion sensibilities.

Designer Manish Malhotra's signature touch elevates the look with meticulous detailing and couture craftsmanship — the pearlwork and crystal accents reflect a fusion of classic Indian ornamentation with Western-inspired glamour. This pearl-centred trend has been gaining traction across celebrity fashion circuits this year, with many industry insiders predicting it will continue to influence red carpet and bridal couture alike.

Styling That Enhances the Look

Sara kept her accessories minimal, opting for delicate solitaire jewelry that complemented the rich embellishments of her outfit without overpowering them. Her beauty look — featuring luminous skin, subtle blush, defined eyes and a warm nude lip — added to the ensemble's graceful yet striking aura.

Trend Influence and Fashion Impact

The *pearlcore* trend — characterised by outfits heavily detailed with pearls, crystals, and refined surface ornamentation — has become a standout motif in contemporary celebrity fashion. Sara's appearance in this sophisticated yet playful lehenga underscores how traditional Indian silhouettes can be reinvented with modern couture elements, appealing to both fashion forward and classic aesthetics.
