

From Vision to Impact: Journey of Building DeveLearn Technologies Pvt. Ltd.

Published on 29 Jan 2026 | By IFI Correspondent

In an era where technology evolves faster than traditional education systems can adapt, DeveLearn Technologies Pvt. Ltd. has emerged as a beacon of industry-relevant, outcome-driven learning. Behind this growing EdTech institution stand two visionary leaders—Dr. Vidya S. Kadam and Akshat Kadam—whose combined experience, global exposure, and shared mission are redefining how India prepares its youth for the future of work.

DeveLearn Technologies Pvt. Ltd. was founded with a clear purpose: to bridge the widening gap between academic knowledge and real-world industry requirements. At a time when employability had become a major challenge for graduates, the founders recognized the urgent need for skill-based, hands-on technology education aligned with global standards. Today, DeveLearn specializes in advanced domains such as Data Science, Analytics, Artificial Intelligence, and Cybersecurity, delivering training that translates directly into careers.

At the heart of DeveLearn's academic and operational strength is **Dr. Vidya S. Kadam**, Co-founder and Chief Operating Officer. With over 26 years of experience in education, training, and academic operations, Dr. Kadam has dedicated her career to building accessible, ethical, and outcome-oriented education systems. Seven years ago, she co-founded DeveLearn with a strong conviction that education must go beyond theory and directly impact students' employability.

As COO, Dr. Kadam leads institutional operations, faculty development, academic quality assurance, and student placement initiatives. Her hands-on leadership style and deep understanding of learner needs have played a pivotal role in DeveLearn's consistent career results. Under her guidance, thousands of learners have been trained and successfully placed in high-demand technology roles, earning the organization a reputation for quality delivery and ethical practices. Widely respected in academic and training circles, Dr. Kadam is known for her unwavering commitment to students' careers and her ability to build partnerships that empower youth with practical, job-ready skills.

Complementing this strong educational foundation is the technical and strategic vision of **Akshat Kadam**, Co-founder and Director of DeveLearn Technologies Pvt. Ltd. An alumnus of IIT Bombay, Akshat began his professional journey as a Research Scientist at Sony Corporation, Japan. There, he worked on advanced research and development projects, leveraging Artificial Intelligence in cutting-edge global environments.

Despite a successful international career, Akshat was driven by a larger purpose—to bring global R&D rigor and industry practices back to Indian education. His return to India marked the beginning of DeveLearn's technology-first approach. As Director, he leads technical strategy, curriculum architecture, and corporate partnerships, ensuring that every program remains practical, current, and aligned with industry needs. His contributions have been instrumental in introducing and strengthening programs in Data Science, Artificial Intelligence, and Cybersecurity, with a strong

emphasis on real-world problem-solving and employability.

Together, Dr. Vidya S. Kadam and Akshat Kadam have built DeveLearn as more than just an EdTech company—it is an ecosystem focused on careers. The organization blends strong academic fundamentals with live projects, hands-on training, and placement-oriented outcomes, ensuring learners are industry-ready from day one. This balanced leadership—combining decades of educational expertise with global technology insight—has become DeveLearn’s greatest strength.

As part of its growth journey, DeveLearn Technologies Pvt. Ltd. has recently launched a structured **Franchise Model**, enabling educators and entrepreneurs across India to collaborate in delivering standardized, high-quality technology education. This initiative reflects the founders’ long-term vision of scaling impact while maintaining academic integrity and consistent outcomes nationwide.

Today, DeveLearn stands as a growing institution committed to preparing India’s youth for the evolving demands of the global technology ecosystem. The success story of Dr. Vidya S. Kadam and Akshat Kadam is not just about building a company—it is about building futures. Through purpose-driven leadership, ethical practices, and a relentless focus on employability, they continue to shape careers and contribute meaningfully to India’s digital and economic growth.

Selected for Maharashtra’s Prestigious Awards

Recognizing their dedication and achievements, they have been selected for the prestigious “**Maharashtra Business Icon 2025 / Maharashtra Style Icon 2025 / Maharashtra Fashion Icon 2025**” awards.
